

## **JANUARY 2003—DEBUT OF Radiology Imaging Associates PET SCAN CENTER:**

Radiology Imaging Associates PET Scan Center is among the first freestanding outpatient imaging facilities to provide one of the most advanced PET scan programs in southern Maryland. RIA offers advanced Positron Emission Tomography (PET) imaging with a state-of-the-art Philips Full-Ring Allegro PET scanner. The high resolution, exquisite sensitivity and rapid image acquisition of the Allegro's new and advanced GSO Pixilar Crystal technology yields unique advantages in the early detection and diagnosis of conditions related to Oncology, Cardiology and Neurology. At Radiology Imaging Associates PET Scan Center patients can expect:

- Convenience and comfort of an outpatient center exclusively dedicated to PET imaging
- Ample free parking on the same level
- Flexible appointment availability
- Convenient, easy access from the Capital Beltway
- Board Certified Radiologists specifically trained in PET scan imaging and interpretation
- Dedicated professional staff
- Same-day results to referring physicians

It is reassuring to get good news after a diagnostic exam, especially if cancer is involved. It's also comforting to know that your health care provider uses the most state-of-the-art technology and patient friendly imaging systems available. Medicare has approved PET for a number of indications, and it is approved by many insurance plans. For more information or to schedule an appointment call (301) 449-7387.
