

OCTOBER 2003—IT'S OUT WITH THE OLD AND IN WITH THE NEW AT PEMBROOKE IMAGING & MRI CENTER.

RIA at Pembroke has introduced a wider, shorter and more comfortable new MRI scanner and a new suite designed to maximize efficiency and enhance the patient's experience. A new flared opening, short-bore Philips Intera high-field strength MRI provides the latest in cutting-edge technology for the highest quality imaging available. Patient comfort is maximized by the Intera's bright and airy anti-claustrophobic design and dramatically reduced scan time. The comfort features and reduced scan time make Intera the ideal MRI for everyone including pediatric and oncologic patients.

Quick report turnaround provided and evening and weekend appointments are available. For more information call 301-870-8434 or 301-932-4522.
